

PET Expandable Braided Sleeving

Application: This expandable sleeving is made from braided PET, meeting UL and environmental requirements. Its unique braided construction and expandable nature gives it high tensile strength and abrasion resistance perfect for centralizing and protecting wires, cables and various connectors.

Specification:

Test Item	Value
Operating Temperature	-45°--150°C
Flammability	UL VW-1

PVC Extruded Tube

Application: Non-shrinkable tube for use with 300V and 60V circuits.

Specification:

Test Item	Value
Operating Temperature	-45° - 150°C
Flammability	UL vw-1

Heat Gun

Specification:

Versatility of two temperatures – ranges 1000°F and 600°F
 Hanging hook
 120V or 200V
 1200W or 1500W
 USA Authentication (CE Recognized)
 Temperature overheat protection
 Rapid heating, quality control, and stable operation

Bus-Bar

Specification:

I.D. 28mm ~ 298mm
 1KV~35KV

Test Item	Value
Operating Temperature	-40°--125°C
Shrinking Ratio	2.5 : 1
Flammability	Pass
Shrinking Temperature	Start at 110°C
